ABOUT US

INTRODUCTION:

Nipras Metal Group is a diversified private enterprise and a Saudi organization established in 2010 with a vision to be a preferred partner for our valuable clients in supplying quality and cost effective building construction and Architectural engineering solutions. Since the establishment of Nipras, we have been partnered with major organizations in the kingdom to consistently serve their projects and, we have engaged closely with many key contractors and consultants by meeting their expectations in providing high-quality and certified construction and Architectural products. Nipras group operates its business units from three divisions in manufacturing, supplying and sub-contracting of various Architectural products such as Roof Hatch Access, Gratings, Railings, Raised Floors, Garbage Chute System, Cable tray management solutions, and all types of stainless steel & metal fabrication and other building construction materials. The company has two production lines of Architectural products and cable management systems.

At Nipras we always strive hard to supply and meet our client's requirements with high-quality products quickly and efficiently. The company adopts modern management concept, adheres to survival by quality and development by integrity, and gradually boarded the local competition platform. We rely on service to enhance the client relationship, sincerely create value for customers, and provide customers with high-quality and reliable products and wholehearted service. Our company has advanced production equipment which guarantees the most advantageous product quality and efficiency.

Nipras is accredited through various quality certifications and standards meeting all project's technical criteria and consultant approvals. We are an ISO-1519 certified company to ensure the quality, safety, and efficiency of our products. We gain trust of our existing clients and new customers with the best products, the best quality, competitive price and the most perfect service.

OUR VISION

Nipras strives to strengthen its manufacturing base in the steel industry to serve the kingdom and contribute to its vision through effective utilization of staff and materials with cutting-edge technology and high productivity, consistent with modern management practices.

OUR MISSION

To be a preferred partner for our valuable customers and consistently exceeds our customer's needs and expectations in quality, delivery, and cost through continuous improvement and enhancing customer satisfaction. We go all out to manufacture, deliver and supply superior steel and metal products to our clients utilizing sustainable procedures that meet the international standards.

OBJECTIVES

- **The aim of NIPRAS is to fabricate steel and metal work in the construction sector by the development of standards to turn raw metal into Architectural engineering solutions that can be used in construction.**
- **To assist clients, kingdom wide, by providing Architectural engineering solutions and expertise.**
- **To expand our business by offering the best in quality, cost and solutions.**
- **To provide our employees with the opportunity to develop their full potential within a safe and productive environment.**
- **To seek a competitive advantage by developing partnerships with clients, suppliers and subcontractors.**

مصنع نيراس المعادن
NIPRAS STEEL FACTORY

TECHNICAL TEAM

Lead with Engineers and other professionals at NIPRAS TECHNICAL DEPARTMENT, we access a vast array of advanced, highly sophisticated testing, modelling, failure analysis and other resources to develop the next generation of products, where the future is born.

Technical Division is entrusted with the work in respect of various subjects of technical nature via Research & Development, Energy & Environment Management, Standardization & Quality Control of products, etc. The work being dealt with by this division may be grouped under few categories namely:

- ✓ Research & Development in Metal & Steel Fabrication.
- ✓ Technical Regulations on the Products to promote quality.
- ✓ Technical Inputs on the ongoing / future products etc.

SOCIAL RESPONSIBILITY

We "NIPRAS" ability to sense, understand and react to others emotions while comprehending on social networks. (Social awareness which encompasses the competency of empathy is the ability to read nonverbal cues for negative emotions, particularly anger and fear and to judge the trustworthiness of others

It is about understanding others feelings, not experiencing them (Garner, 2009). NIPRAS accentuates on an individual's ability to identify, perceive and react to other's emotions while being a part of the social network circuitry. NIPRAS understand the ability to and be compassionate to the feelings, views, opinions and challenges of other people. Social-awareness cannot only be equated with understanding people's need but as well as caring for them (Goleman, 2006).

SOCIAL RESPONSIBILITIES

EMPLOYEES

At NIPRAS we empower our employees to leverage the corporate resources at their disposal to do well. Being a socially responsible company can bolster a company's image and build its brand.

CUSTOMERS

A business cannot work without consumer. The survival and growth of business depends on consumer satisfaction, service and support. "NIPRAS" winning the confidence of our customers made it possible by following a positive attitude towards customers and fulfilling our social responsibilities by providing them:

- Quality
- Fair Prices
- Honest advertising
- After sales service
- Research & Development for their requirements
- Safety
- Regular supply

CIVIL SOCIETY

According to the Saudi Youth in Numbers report, 37% of the Saudi population is under 25. This entails that the youth will play a more significant role in undertaking the paths set by Vision 2030 and inheriting the future it's attempting to build. NIPRAS gives our platform to the young for developing their sense of civic responsibility, involvement, and interconnectedness. Opportunities to equip the upcoming generation with the necessary skills and motivation to become active participants in their communities.

ENVIRONMENT

NIPRAS understands the nature of the relationship between corporate adoption of the concept of societal responsibility [availability of environmental awareness, clear vision of the impact of societal responsibility on financial performance, managers informing employees of the latest developments in societal responsibility programs, managers' response to their corporate social responsibility (CSR) proposals] in the form of an annual report that supports the success of the company's objectives, the company's management encourages employees to participate collectively in societal responsibility programs and to protect the environment from pollution in the industry.

HEALTH & SAFETY

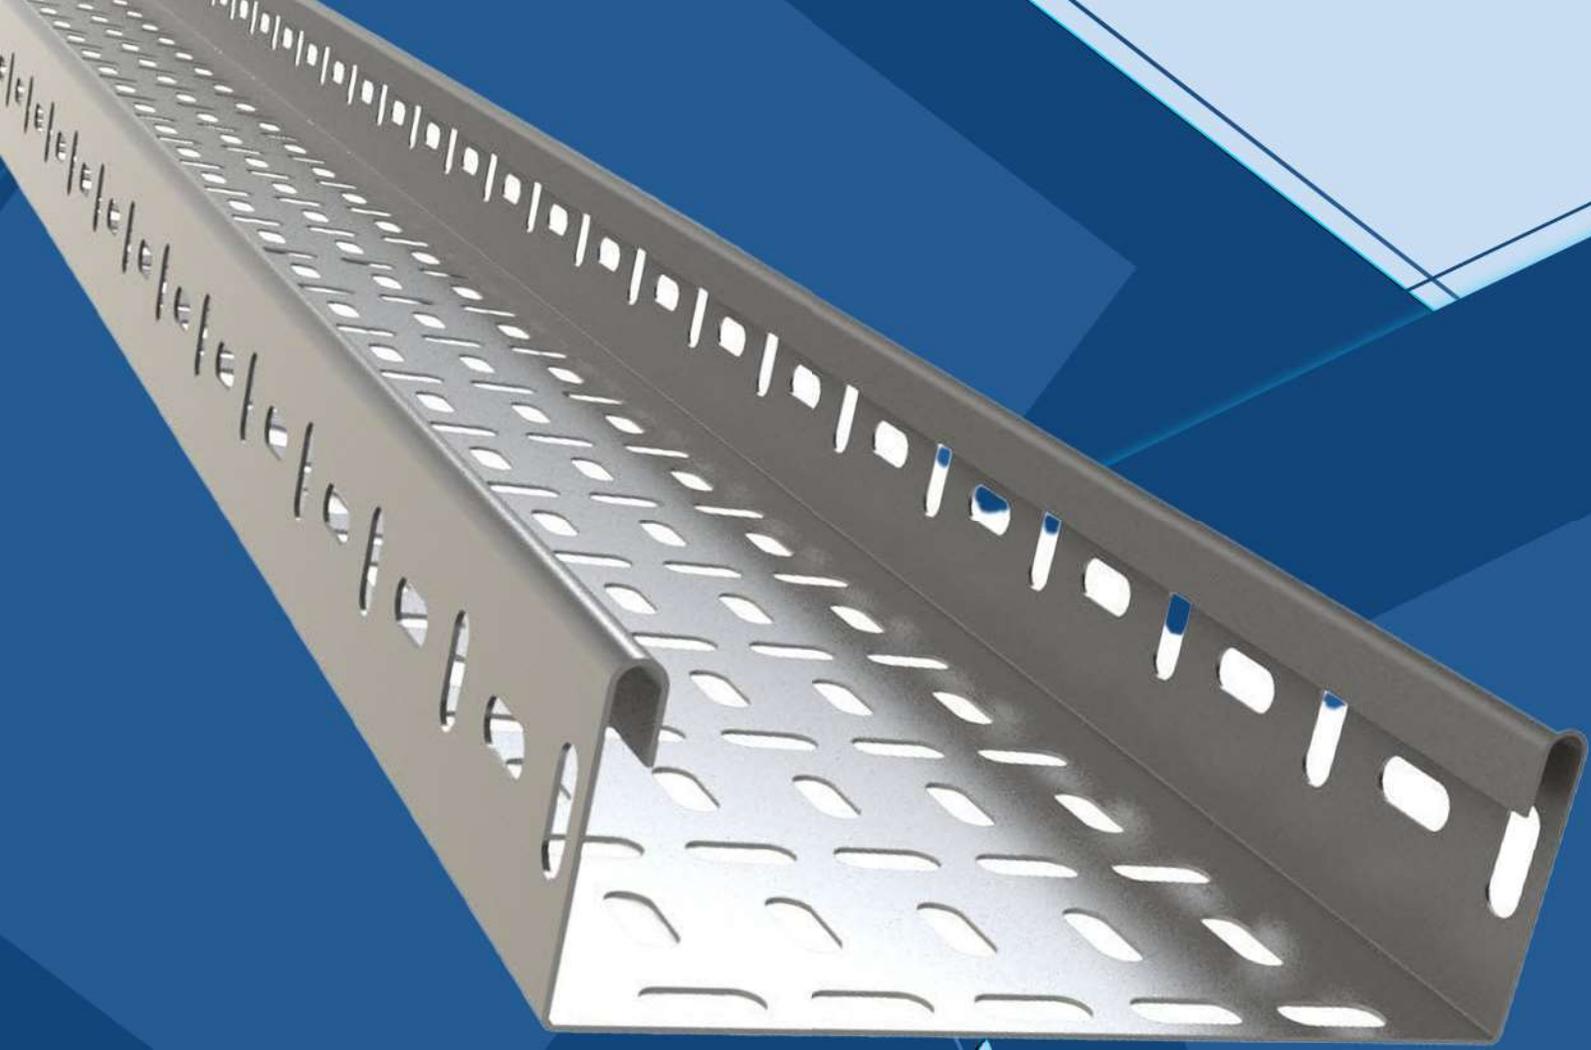

”NIPRAS” as a manufacturing Company for Metal & Steel Products has a large number of hazards because of the strong internal as well as external forward and backward linkages in terms of material flows. Employees are to work in hazardous environment because of complicated equipment layouts, high temperatures, heavy equipment’s, moving machinery, hazardous processes, heavy lifting and movements of materials in the work environment etc. Further, several operations involve working at heights or in confined spaces. In short, working involves both very high volume as well as the complexity of operations which results into employees getting exposed to a high level of health and safety risks.

The health, safety, and protection of our employees, equipment, and the environment are perfectly calculated and implied as a crucial since it affects both economic and social factors.. On the other hand, a healthy and safe workplace contributes towards plants competitiveness as well as in profit growth.

ADVANCED MACHINERY

Standardized production lines meeting the complete requirements for the industry. Facility equipped with high end and advanced machinery "NIPRAS" serve our customers with topmost perfection. Our facility comprises with most high end technology where mentioned few are our key role players as - Laser Cutting / Sheering Machines, CNC Bending Machines, CNC Punching Machines, Auto Welding Sets and more.

CABLE TRAYS

CABLE MANAGEMENT SYSTEM

Cable management is the organization of cables connected to electrical devices. This includes power cables, network cables, audio/video cables, and many others. Managing cables is a key aspect of a clean and safe home or work environment.

NIPRAS STEEL FACTORY – Provides many cable support systems with specially designed supports that are easy to install and can support heavy duty cables along with others. Our best selling products are...

- CABLE TRAY
- CABLE LADDER
- CABLE TRUNKS
- CABLE BASKET (WIRE)

Cable Trays provide the most ideal answer for concealing and protecting all types of cables that are available in various widths, heights and thickness. **NIPRAS CABLE TRAY (NCT)** fabricated by single sheet (slotted/plain) is without any welding, provides a continuous support for the standard/custom lengths.

Cable ladders are utilized where heavy weighted cables are to be supported over long runs and extended supported spans. **NIPRAS CABLE LADDER (NCL)** covers up these loads with our wide range from light to heavy duty.

Cable Trunking with good aesthetically pleasing option is widely used to cover up the cables and have the freedom of movement throughout the installed area. **NIPRAS CABLE TRUNK (NCTR)** supplies the item with different standard/customised compartments within.

Wire Basket Tray System is an industry leading continuous cable basket and pathway support solution for today's high-performance cabling systems. Highly engineered features help ensure a secure installation that complies with industry codes and standards for high-performance cables. Clever design allows the installer to maximize field efficiency. **NIPRAS BASKET TRAY (NBT)** provides the perfect combination of performance, time savings and versatility required by today's **DATACOM** and electrical contractors.

CABLE TRAY

Cable trays are mechanical support systems that provide a rigid structural system for electrical cables, raceways, and insulated conductors used for electric power distribution, control, signal instrumentation, and communication.

This catalogue helps the Engineers and contractors to choose the right product for construction and maintenance. Any customized / unique product not included in this catalogue can be designed and provided accordingly.

Cable Tray (Perforated / Plain)

Cable Trays provide the most ideal answer for concealing and protecting all types of cables that are available in various widths, heights and thickness. NIPRAS CABLE TRAY (NCT) fabricated by single sheet (slotted/plain) is without any welding, provides a continuous support for the standard/custom lengths.

Manufacturing Standards - IEC 61537:2007, BS EN 61537:2007, NEMA VE 1 – 2009, NEMA VE 2 – 2006, NEC (ANSI / NFPA 70)

Material & Finish- Pre-Galvanized, Hot Dip Galvanized and Stainless Steel, Aluminium
Standard Length – 2.44 /3.00 mm

Thickness - 1.0mm to 3mm

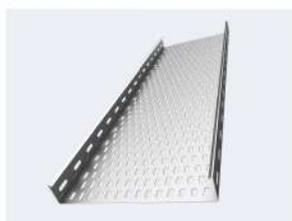

Height - 25mm,40mm, 75mm and 100mm.

Width - 40mm, 50mm, 75mm, 100mm, 150mm, 300mm, 600mm, 750mm and 1000mm.

Different Types of product designs described below -

Cable Tray-Solid

Cable Tray-Perforated

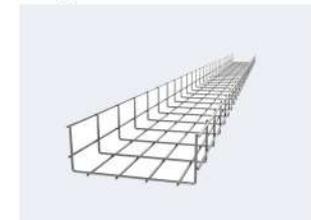

Cable Ladder -
Swaged Rounded Tubular

Cable Ladder - Welded

Cable Trunking (Solid)

Basket Tray
(Wire Mesh)

DIMENSIONS

NIPRAS Light Duty Cable Tray - NLCT - 100

Thickness : 1.00 mm

Side Height : 50 mm

Length : 2440 mm / 3000 mm

Width : 50 - 1000 mm

NIPRAS Medium Duty Cable Tray - NMCT - 120

Thickness : 1.20 mm

Side Height : 50 ,75 and 100 mm

Length : 2440 mm / 3000 mm

Width : 50 - 1000 mm

NIPRAS Heavy Duty Cable Tray - NHCT - 150

Thickness : 1.50 mm

Side Height : 50 ,75 and 100 mm

Length : 2440 mm / 3000 mm

Width : 50 - 1000 mm

NIPRAS Very Heavy Duty Cable Tray - VCT - 200

Thickness : 2.00 mm

Side Height : 50 ,75 and 100 mm

Length : 2440 mm / 3000 mm

Width : 50 - 1000 mm

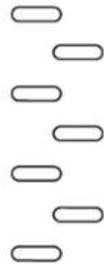

Custom sizes also available

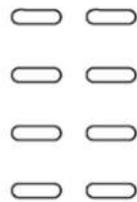

DIMENSIONS

All illustrations, drawings and descriptive material in this publication are of a generally informative nature only, and do not form a complete package of the specifications or description of the goods. Most of the dimensions shown are nominal. NSF can make modifications and design, materials or finishes as it deems necessary or desirable as per the required standards.

MATERIAL & PRODUCT STANDARDS

NATIONAL ELECTRICAL CODE

MATERIALS

Mild Steel - Plain

A. Hot rolled steel plates, sheets and coils s235 jr, As per :
EN 10025-2 / DIN 17100 / BS 4360 / ASTM A653 | ASTM A 1011
ASTM A 1011-011-01 a/ JIS 3101 / JIS 3106 / GB 700 / T1 591
ASTM A 907 / ASTM A 572 M.

B. Cold Rolled Steel DC 01, As per :
EN 10130 / DIN 1623, Part 2 / BS 1449 :1 / ASTM A 1008
JIS G3141 / GB 699, EN 10131 / ASTM A 568M.

*Note: All outdated standards / codes are replaced with new/ latest versions and the final product shall comply with the latest version

Mild Steel - Galvanized

C. Continuously Pre-Galvanized Hot-Dip Zinc Coated Steel DX 51 D +Z, As per :
EN 10327 / DIN 17162 / BS 2989 / ASTM A527M / ASTM A653 M
JIS G 3302.

EN 10326 / EN 10142 / ASTM A 526, 527, 528 / ASTM A 146

D. Electro Galvanized Steel (Electrolytic Coating)

DC01 + ZE As per :

EN 10152 / DIN 17163 / ASTM A591 / JIS G3313
JIS G3141 / BS 1449:1 / EN 10131.

*Note: All outdated standards / codes are replaced with new/ latest versions and the final product shall comply with the latest version

Stainless Steel

F. Austenitic Stainless Steels AISI 304 & 316 As per:
ASTM A240 / EN 10088 - 2 / DIN 17400 / BS 1449-2
ASTM A480 / ASTM A666 / ISO 3506 / EN 10028-7
JIS G4304

F.1 Stainless Steel Fasteners EN 3506

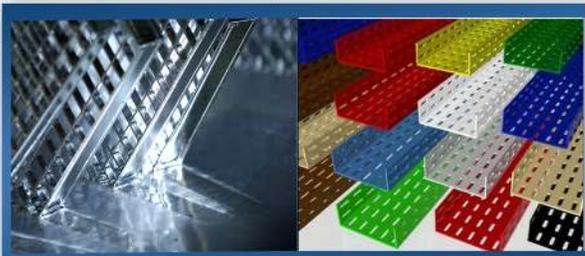

F.2 Stainless Steel Wire BS 1554, ASTM A 27

Aluminium

G. Aluminium 5052 & 6063

*Note: All outdated standards / codes are replaced with new/ latest versions and the final product shall comply with the latest version.

FINISHES

1. HOT - DIP Galvanization After Fabrication As per :

ASTM A 123 / ASTM A 153 / ISO 1461
BS 729 / DIN 50976 / BS EN 10143 / BS EN 10346

2. ZINC Electroplating After Fabrication As per :
ASTM B633 / EN 12329 / ISO 4042 / BS 1706 / BS 3382
DIN 50961

3. Powder Coating
Epoxy / Polyester / Epoxy & Polyester
BS 3900 / 2409 / ISO 1519 / ISO 1520

*Note: All outdated standards / codes are replaced with new/ latest versions and the final product shall comply with the latest version

CABLE TRAY COVER

Functions

Cable tray covers shall be considered for any of the following purposes:

- Protection from falling objects or debris, as may occur beneath personnel walkways.
- Shielding from ultra-violet rays of the sun and guarding against other weathering elements.
- Minimizing accumulation of foreign contaminants such as ash or other industrial deposits.
- Protection of cables and personnel where a riser tray penetrates a floor or grating

Solid Cover

Covers Side Height Types :

- Solid without flange -(SOF)
- Solid with flange -(SWF)
- Ventilated without flange -(VOF)
- Ventilated with flange -(VWF)

Ventilated Cover

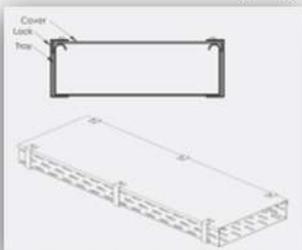

- Cable Ladder covers are supplied with or without a 15 mm downturned flange.
- Straight section covers are furnished 3000 mm long. All fitting covers are furnished in solid design only

Cable tray cover with locking clamp

Covers Side Height Types:

- Solid without flange-(VOF)
- Solid with flange-(VWF)

Locking Clamp Thickness: 2mm

Locking Clamp		
Side Height 3300

CABLE TRAY SUPPORT SYSTEM

مصنع نبراس المعادن
NIPRAS STEEL FACTORY

CABLE TRAY SUPPORT SYSTEM

C - Channel

N S F metal framing C - Channel is cold formed on modern rolling machines from low carbon steel manufactured according to BS 6946: 1988. A continuous slot provides the ability to make attachments at any point.

Lengths

Standard length: 300mm with + 3.2mm length tolerance. Custom lengths are available upon request

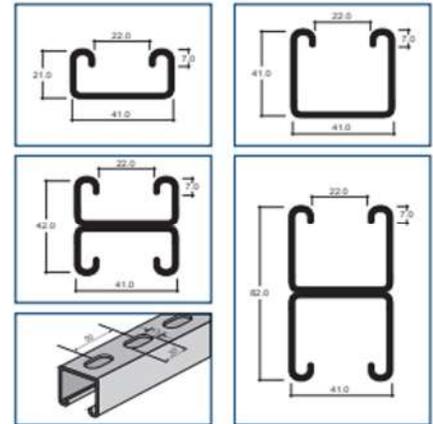

Finishes

Standard Finishes : Pre-Galvanized finish (ASTM A653M coating G90 and G60). Hot Dip Galvanized after fabrication (ASTM A123 or BS EN ISO 1461:2009). Other custom coatings are available upon request

METAL FRAMING C - CHANNELS

Selection Chart

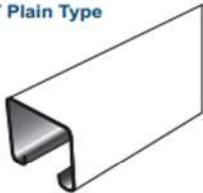

Part No.	Channel Dimensions		Thickness
	Height "H"	idth "W"	
C-Channel - 220/221	21.0 mm	41.0 mm	1.5 mm
C-Channel - 240/241	41.0 mm	41.0 mm	1.5 mm

CABLE MANAGEMENT SYSTEM

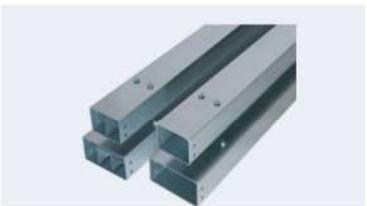

NIPRAS having a wide range of products for Cable Management system, Architectural Engineering Solutions, Building Material and more that are characterized in below categories to support the best interest for our customers.

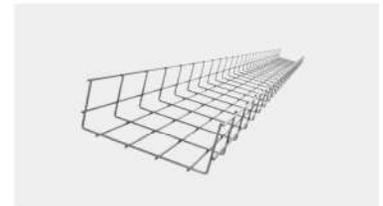

Cable tray & Accessories

Cable ladder & accessories

Cable trunk & accessories

Wire basket tray & accessories

Base plate

Electrical boxes

EMT-Conduits

HFT - Crimped Terminal Lugs

Control panel boxes

C-Channel

RANGE OF PRODUCTS

ARCHITECTURAL ENGINEERING SOLUTION

Roof Access Hatch

Handrail

Garbage & Linen Chute

Access Raised Floor

Lockers

Ladders

Gratings (Steel / Galvanized)

Steel Bollards

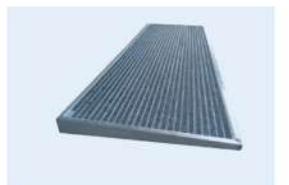

Fence

Toilet Partitions

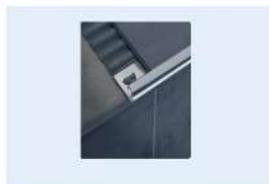

Metal Gates

Entrance Mats

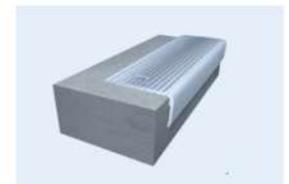

Expansion Joint System

Tile & Carpet Trim

Impact Protection

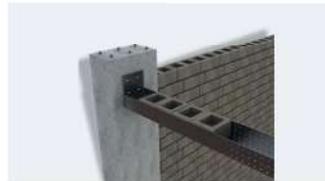

Stair Nosing

BLOCK WORK AND PLASTERING ACCESORIES

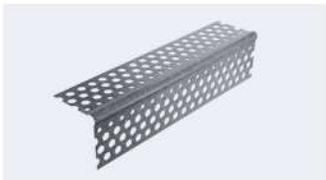

Block Reinforcement

Steel Lintel

Adjustable head restraint

QUALITY POLICY

NSF is fully committed to a quality policy which ensures delivery of its products and services "defect free on time". NSF provides quality management, co-ordination, production and processing, manufacture, and installation services throughout KSA and sometimes outside KSA. Since the establishment, NSF is primarily engaged in providing Architectural Engineering solutions in the market and aims to achieve a high standard of production and trading services.

- NSF possess the policy to:
- Manufacture and supply products which fully confirm to the customer's requirements, relating to quality, reliability, and delivery.
- Use the company's considerable experience and knowledge in the production of standard products to assist customers in the cost-effective design and development of both existing and new products.
- Ensure that suppliers of raw materials, goods and services confirm to all requirements and are of a consistently high quality, to enable the company to achieve its commitments to all customers.
- Recognize that the responsibility for quality lies with all employees of the company and hence to stimulate and encourage interest and pride in their work.
- Hold frequent Quality Management System review meetings to enable continual review of the suitability of the Quality policy and all aspects of the Quality Management System.

These requirements of Quality Policies are compared to the requirements of ISO 9001 :2015- Quality Policy. NSF strives to eliminate
